### **Description**

IMN240LP is a card use to prevent possible electronic components damage of the of IMN240 Master and Relay and MESDAVE200RS board.

IMN240LP protect the IMN240 from electrical discharge, it is a voltage suppressor circuit for synchronize line of IMN240 and for RS485 circuit of MESDAVE200RS microwaves.

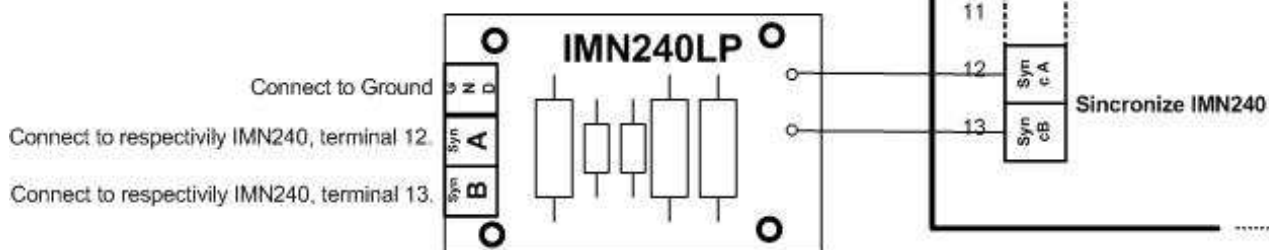

IMN240LP must be connect to the IMN240Master and IMN240 Relay to terminal block 12 and 13 as show in next picture. It could also be connected to MESDAVE200RS RS485 clamps, to protect the RS485 board from external discharges, as in the following pictures

**A ground connection needs to be connect on the terminal block GND of IMN240LP.**
